Mysore Circle,
Mysore, Dated.....19

No. 115/MIS/MMI/10788/61-62

To

The Chief Engineer, General
in Mysore, Bangalore.

Sub: The levy of demand of contribution for works
pertaining to silt and weed clearing in
Irrigation channels.

In continuation of this office letter No. 115/

MIS/MMI/3372 dated 11.10.1961 on the above subject, I

write to state that the Government in their order No.

P.W.D. 121 MTP 60 dated 26/23-9-1960 (Copy enclosed)

have directed the construction as well as maintenance

of ~~both comes~~ ^{water courses} upto the limit of 50 acres of heavy

and 100 acres of light irrigation should be done at the

Government cost although the discharge required may be

less than one cases It is a point for consideration

whether the cost of silt clearing has to be debited to

the atchkatdars.

Yours faithfully,

SD/-

Commissioner & Ex-officio administrator, Tunga-
bhadra Project, Gulbarga.

=====

P R E A M B L E :

Government have issued orders for construction of water courses for every 50 acres of heavy irrigation and 100 acres of light irrigation at Government cost even though the discharge required for these areas is less than 1 cusec. The Divisional Commissioner has proposed in view of the position explained by him, that these water courses may also be maintained at Government cost.

ORDER THEREON NO.PWD 121 MTP 60

Bangalore, dated 26th/28th Sept 1960.
A Shveeja SE. 1882

In modification of the Govt. order referred to above Government is pleased to direct that construction as well as maintenance of water courses, up to the limit of 50 acres of heavy and 100 acres of light irrigation, should be done at Government cost although the discharge required may be less than 1 cusec.

By order and in the name of the Governor
of Mysore.

SD/=

Deputy Secretary to Government,
Public Works Department (Irrgn.)

D.O.No.IPH 236 MIS(b)61-62 dated 16.9.61.

.....

With reference to the above, I write to reproduce hereunder
certain paras of the Revenue Manual and state as follows:-

1. Para 114 (Item No.ii) of Revenue Manual Vol I states that
in the case of River channel the deligation of the ryots to remove
only the weeds from the main channel is to be enforced, the rest
of Maintenance work (silt clearing, earth work etc.) to such channels
should be done by P.W.D.

2. Para 365 of Revenue Manual Vol I reads " the ryots hold
lands under the channels drawn off from the Hemavathi and Cauver
rivers are exempted from the duty of clearing silt from the irrigation
channels. Certain village grants have been sanctioned for the
clearance of weeds and silt from these channels by the Government
agency. The liability of the ryots in respect of branch channel
and long hikkals has been converted with an acreage cess of Re.1
per acre on lands commanded by the several branch channels. Prop
Mutchalikas being obtained from the ryots.

Further in the note under the item (7) of the para 328 of
Revenue Manual Vol. I regarding other rules regulating expenditure
of the fund it is stated that the cost of maintenance of the river
channels in Mysore and Hassan districts will be debited to the
irrigation cess fund only to the extent decided by Govt. in each
case. A certain percentage in the case of these channels may be
met from State Funds.

But P.W. Accounts code mentions only regarding para 365 of
Revenue Manual as per the practice in the circle, the silt and
weed clearing in irrigation channels drawn off from the rivers
to be maintained by P.W.D. and the cost being met from Govt. fund
under 18 O.R.E. 'C' Maintenance & Repairs.

The annual maintenance cost of pay of the sowdies and other
water regulating staff and equipment is being met from irrigation
cess fund allotted by the Revenue Dept. I.C.F. grants allotted
are very meagre and it will be hardly enough to meet the cost of estab-
lishment of the maintenance staff with the present increased cost of
materials and ^{pay} scales. Hence meeting the cost of " silt and weed
clearing from the river channels is out of question. It may be
mentioned here that I.C.F. grants are not allotted from last 3-4
years and the ~~expenditure~~ expenditure incurred under the annual

General. I learn that there is a proposal to approach the Govt. to have these estimates also sanctioned under the Govt. funds 18 O.R.E. 'C' Repairs.

As the Mysore Public Works Account Code which is the reference book for P.W.D. offices and officers, mentions only the channels taking of ~~from~~ rivers ~~xxxxx~~ Cauvery and Hemavathi, for exemptions for the clearance of silt and weed by the ryots, it is desirable that such exemptions are extended to other channels as in the case of Reservoir channels and the Govt. orders obtained to that effect.

GOVERNMENT OF MYSORE

No. PWD 06 217 62

MYSORE GOVERNMENT SECRETARIAT,
VIDHANA SOUDHA,

Dated, Bangalore, 17th June 1967

FROM

The Secretary to the Government of Mysore
Public Works & Electricity Department.

To

All the Divisional Commissioners.

Sirs,

Re: Levy and recovery of Water rate.

...

I am directed to request you to forward a report indicating as to whether the water rate as prescribed in the Mysore Irrigation (Levy of Water Rates) Rules 1965 are being collected under the Projects in your jurisdiction. The year from which water rate is being collected, amount outstanding may be sent for information of Government.

It has been brought to the notice of Government that in the case of Arichnerajesagar the ryots had executed a matchalike agreement for the water rate that could be paid by them. The rate agreed to in the matchalike could be increased only as per terms of the matchalike. It may therefore be intimated if the beneficiaries have executed any such matchalikes in the case of other projects.

Yours faithfully,

(S.K. MOHAJ)
UNDER SECRETARY TO GOVERNMENT,
PUBLIC WORKS & ELECTRICITY DEPARTMENT.
